Disproportionate burden

This section covers issues that we cannot fix right now. We've assessed the cost of fixing these issues but believe that doing so would be a [disproportionate burden](#) within the meaning of the law.

The website currently sits on an external platform and there are known accessibility issues that cannot be fixed whilst using this platform (See list below). The website will be updated to fix the issues that we have control over. Work will begin on creating a new site using the GOSS platform that will be accessible and due to launch in 2021.
